

# Avast Business Antivirus Pro Plus

## All-in-one protection for devices, data, and employees

Avast Business Antivirus Pro Plus is an award-winning, enterprise-grade solution that delivers comprehensive protection for small and medium businesses' devices, data, and employees.

### Block cyberthreats from entering your network

Our Web, File, Email, and Behavior Shields work together to actively analyze suspicious information coming and going from devices and block malicious files, dangerous websites, unusual behavior, unauthorized connections, and other threats.

### Protect your mission-critical data

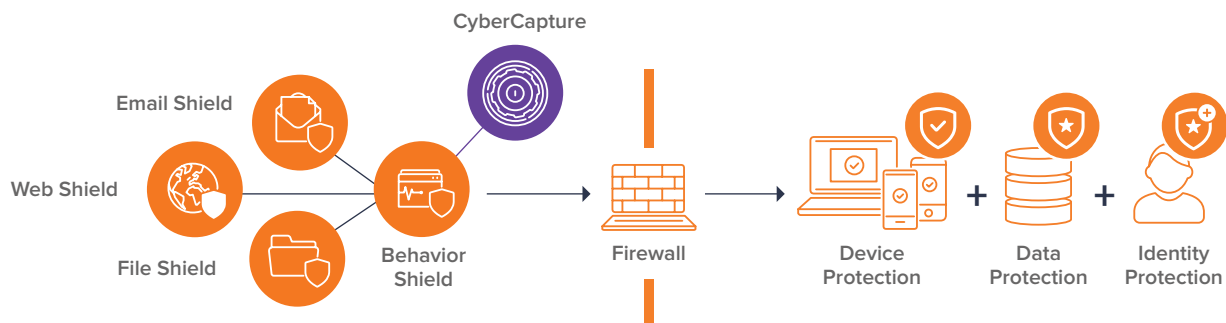

Avast Business Antivirus Pro Plus scans all files to ensure they are malware free – whether they are shared or reside in Exchange and Sharepoint servers.

### Secure your employees

Our SecureLine VPN, Browser Cleanup, and Webcam Shield features ensure your employees' identities remain protected – whether they are on a private or public network.

### Predict and identify new threats

Our 400 million+ active users provide a continual stream of data that helps us quickly identify and destroy any threat – and predict future ones. Across the globe, our immense cloud-based machine-learning engine is evolving and learning, making our solutions smarter, faster, and more powerful than ever.

## Features

### File Shield

Scans files on devices to ensure they are malware-free.

### Web Shield

Checks URLs to ensure a website is safe before a connection is made.

### Email Shield

Inspects incoming and outgoing emails for malicious content.

### Behavior Shield

Looks for suspicious behavior in programs installed on devices that may indicate malicious code.

### CyberCapture

Detects and analyzes suspicious files in a safe, virtual environment.

### Firewall

Monitors all network traffic between PCs and the outside world to prevent unauthorized communication.

### Antispam

Keeps dangerous phishing emails and annoying spam from cluttering and compromising inboxes.

### SmartScan

Scans for malware, outdated software, unsafe settings, and suspicious add-ons.

### Sandbox

Lets users run applications, download files, and visit websites in a virtual environment that is isolated from the computer.

### Wi-Fi Inspector

Scans networks for vulnerabilities, checks network, device, and router settings, and identifies threats.

### Real Site

Protects against DNS hijacking to ensure the correct website is displayed.

### Rescue Disk

Boots up a PC that's been infected with malware from a USB that contains a clean version of the system.

### Security Browser Extension

Scans sites for authenticity and blocks malicious ads.

### Software Updater

Keeps commonly used third-party software up to date to eliminate potential security exploits.

### Data Shredder

Overwrites files multiple times to make them irretrievable.

### Exchange Server Protection

Scans emails at the Exchange server level to stop potential threats.

### SharePoint Server Protection

Checks all files uploaded onto shared storage to ensure malware cannot compromise data.

### Passwords

Secures employees' login details with a master password.

### SecureLine VPN

Connects you to any website securely through Avast Business' VPN servers.

### Browser Cleanup

Checks browsers for add-ons with poor reputation and removes cookies that contain personal information.

### Webcam Shield

Prevents applications and malware from accessing the webcam without consent.

## Available as standalone or with the management console.

### Standalone Antivirus

Ideal for small and medium-sized businesses with four devices or fewer. Users can adjust device settings according to their preferences and maintain complete control of the data.

### On-premise or Cloud Management Console

The management console makes it easy to deploy antivirus protection to multiple devices, manage all devices from one platform, schedule regular scans, and quickly add more devices.

## About Avast Business

Avast Business provides integrated, enterprise-grade endpoint and network security solutions for SMBs and IT service providers. Backed by the largest, most globally dispersed threat detection network, the Avast Business security portfolio makes it easy and affordable to secure, manage, and monitor complex networks. The result is superior protection that businesses can count on.
